

Interview for Supervised Visitation or Monitored Exchange

The interview process includes a gathering of information to determine safety risks and needs. You will need to provide copies of all Court documents relating to case (divorce, custody, supervised visitation order, protective order, etc.), a report of written records relating to Domestic Violence (DV), a report of allegations of abuse or substantiated abuse, a report of the child/ren's health and any special needs. Information received during Supervised Visitation or Monitored Exchange services is not confidential. Monitors are required to submit a report to the Court and copy all parties involved.

If there has been DV or abuse, it is important to establish a parenting plan with your attorney and have it approved by the Court. This will establish custody, visiting times and responsibilities of each Parent.
